

BRANCHCAPTURE

IOWA CORPORATE

Get ready to learn more about Iowa Corporate's Branch Capture Solution.

During the next several weeks, we'll be traveling throughout Iowa to talk about our new branch capture solution and how it can be incorporated into your day-to-day operations. At the town hall meetings you'll see a demonstration, learn about the technical requirements as well as have the opportunity to ask questions. We will also be distributing a pricing schedule that includes a variety of recommended packages based on your volume and technology needs. The meetings are expected to last no longer than 45 minutes and will include a light meal. So join us and learn how branch capture can save your credit union money.
